How To Create Fake Admin Login Page In Django

START →

Now Let's Create A Fake Admin Login Page

1/7

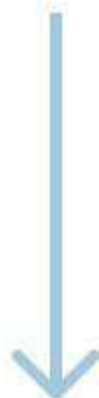

Step-01 | Install Package

First, you need to install **django-admin-honeypot** package in your system

Install this package through this **pip command**

```
pip install django-admin-honeypot
```

3/7

Step-02 | Add In INSTALLED_APPS

open settings.py file and here in INSTALLED_APPS
just add this package

```
INSTALLED_APPS = [  
    'django.contrib.admin',  
    'django.contrib.auth',  
    'django.contrib.contenttypes',  
    'django.contrib.sessions',  
    'django.contrib.messages',  
    'django.contrib.staticfiles',  
    'myapp.apps.MyappConfig',  
    'django.contrib.humanize',  
  
    'admin_honeypot',  
]
```

settings.py

here just add this package

Step-03 | Add Url

Open `urls.py` file and add this URL

```
urls.py

from django.contrib import admin
from django.urls import path, include

urlpatterns = [
    path('admin/', include('admin_honeypot.urls'),
                                     name='admin_honeypot'),
    path('secret/', admin.site.urls),
]
```

Give them real admin
page to secret/ url

here just add this url and
give them admin/ url
