

Django Series

Enhance Skills

By Building
These
Projects

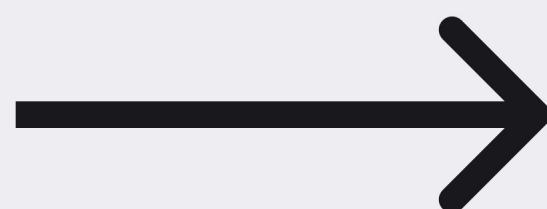

in Django

#pythonworld

Here are several project ideas that can help you enhance your Django skills:

Blog Application

By building this project, you will learn about the authentication, CRUD operation, comments & reply, follow & unfollow features etc.

The screenshot shows a blog application interface. At the top, there's a navigation bar with tabs for BOOKMARKS, **BLOG**, ELEMENTS, PLAYLIST, and BOOKS. A red circular icon with a white letter 'D' is positioned in the top-left corner. The main content area features a large, stylized title 'The Blog' in purple and red. Below it, a post by 'Dari Website Programmer Menjadi UI Designer' dated February 18, 2021, is shown. The post summary mentions transitioning from a programmer to a UI designer. Another post by 'January 30, 2021' titled 'Penggunaan Grid pada desain website' is partially visible at the bottom.

BOOKMARKS **BLOG** ELEMENTS PLAYLIST BOOKS

The Blog

February 18, 2021

Dari Website Programmer Menjadi UI Designer

Merangkum pengalaman saya saat menjalani proses transisi menjadi UI Designer. Terdapat beberapa pain point yang bisa dipraktekan

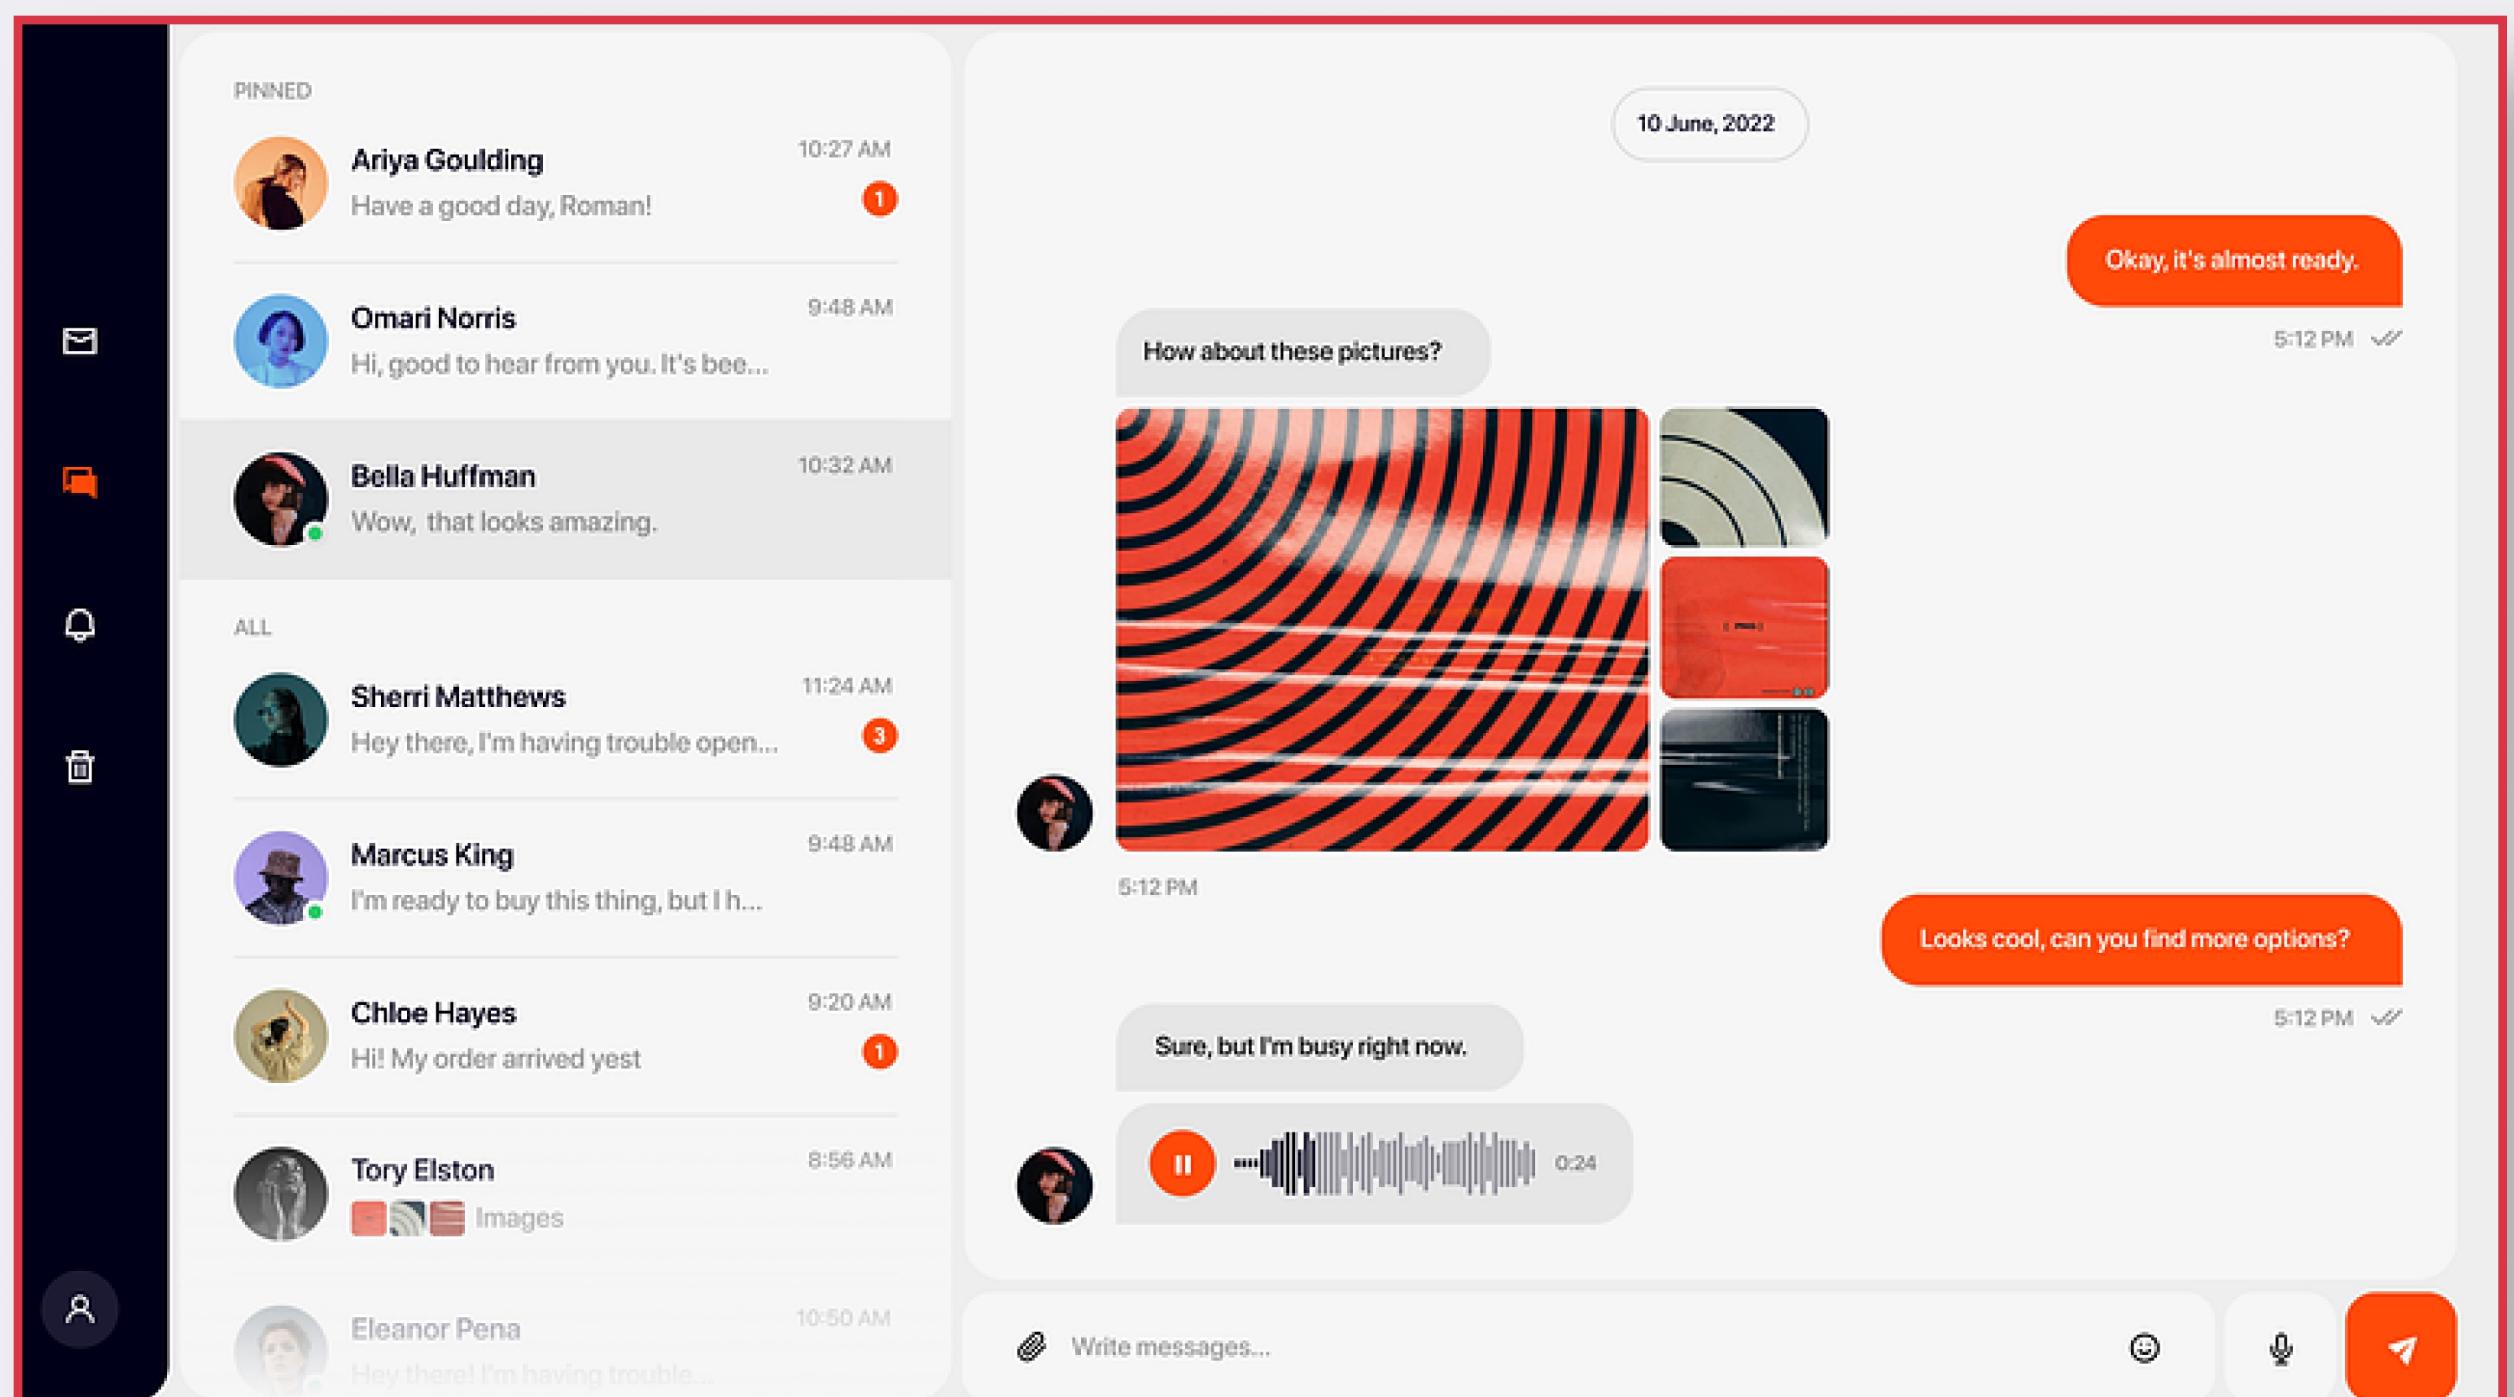

January 30, 2021

Penggunaan Grid pada desain website

Membahas penggunaan grid pada desain website. Berapa kolom yang sebaiknya digunakan dan bagaimana mindset penempatan elemen pada grid

Chat Application

By building this project, you will learn about the web sockets and the django channels package to implement web sockets.

E-commerce

Application

By building this project, you will learn about the authentication, design the complex models, payment gateway etc.

Terdapat berbagai produk
mulai dari pakaian, peralatan dapur, sepeda, mobil alat rumah tangga, sampai token game

Cari kebutuhan anda

PRODUK TERLARIS

Notes API

By building this project in DRF, you will learn about serializers, CRUD API's, how to implement authentication & permissions, search, sort & filter the data etc.

The screenshot shows the A16 Notes application interface. On the left, there is a sidebar with the following navigation items:

- Templates
- Import
- Trash
- WORKSPACE
- Notes
- Tasks
- Announcements
- Music
- Questions
- Dashboard
- Development
- Swift

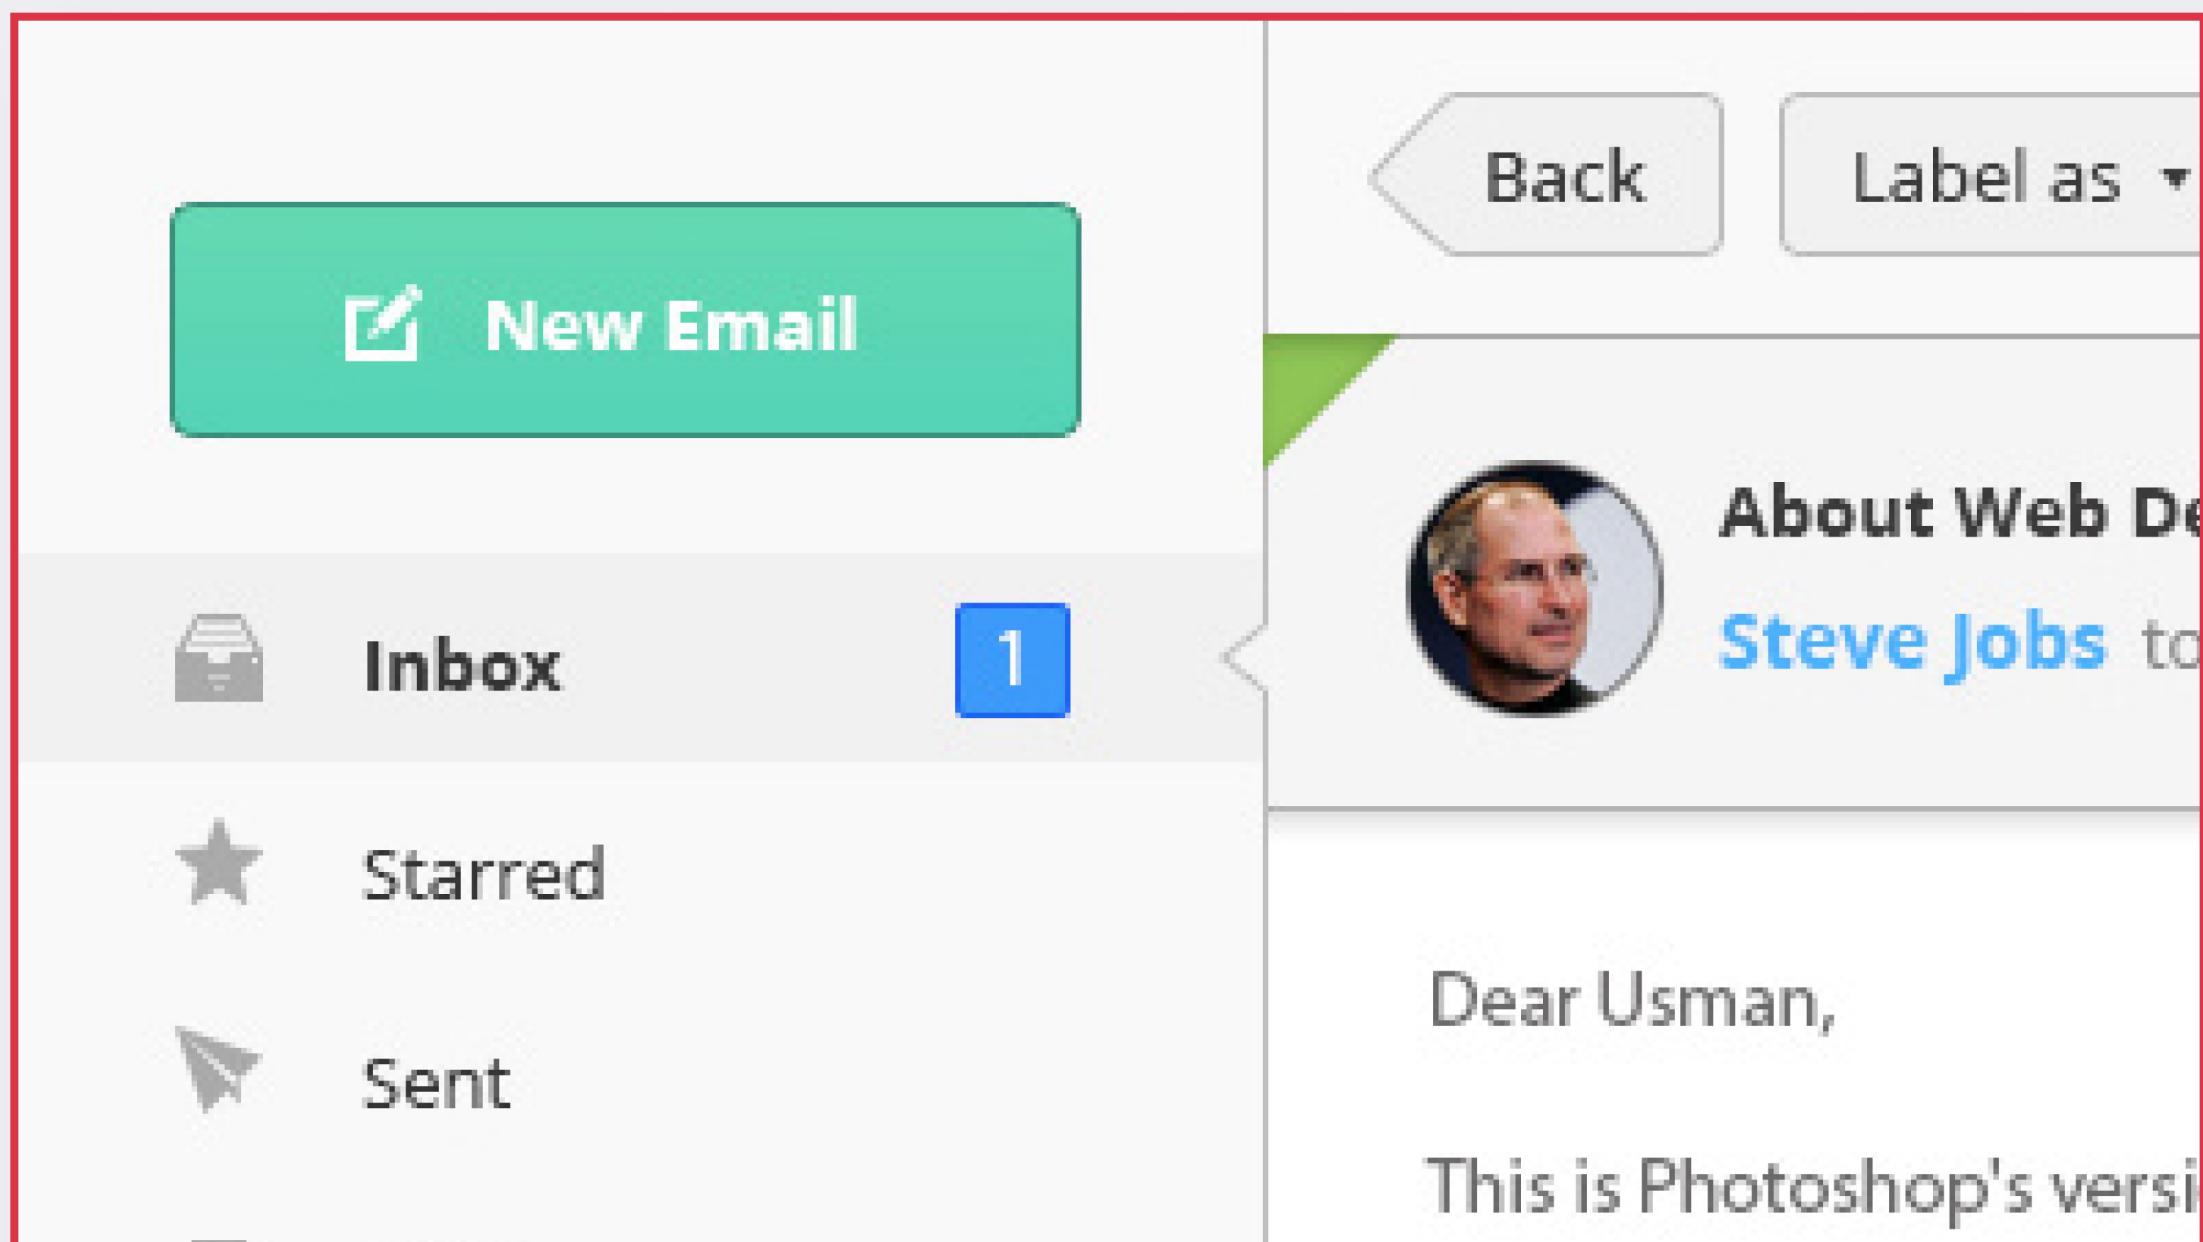

The main area is titled "Notes" and displays a list of notes:

- Grocery list / Stores**
Bread Flour - Instant Dry Yeast - Extra-virgin Olive Oil, 5 banana shallots - 4 garlic cloves.
1 min San francisco, CA
- Books to read ↗**
Cheers to the books we've been meaning to read all these years and should probably start at some point.
5 min
- Write down your ideas ↗**
#Ideas #to-do's #morning
Sometimes, on Mondays, when servers at A16 are announcing the specials, you can almost feel the excitement at the table when the waiters say, 'And of course, since it's Monday ... we have meatballs.' says Shelley Lingren.
1 day
- Curried Carrot Soup**
#recipes/savory #recipes/soups #recipes/savory mains
Curried Carrot and Fennel Soup with Turmeric and Ora...
2 days

On the right side, there is a large illustration of a person sitting at a desk with a laptop, surrounded by clouds and a tree. Below the illustration, there is a section titled "Write down your ideas" with a lightbulb icon. It contains the text: "Sometimes, on Mondays, when servers at A16 are announcing the specials, you can almost feel the excitement at the table when the waiters say, 'And of course, since it's Monday ... we have meatballs.' says Shelley Lingren." There are also sections for "Morning" and "Checklist".

Emails Sending App

By building this project, you will learn about the how to send email's, integration of third party mail services like sendgrid etc. , and also scale your application using celery and redis.

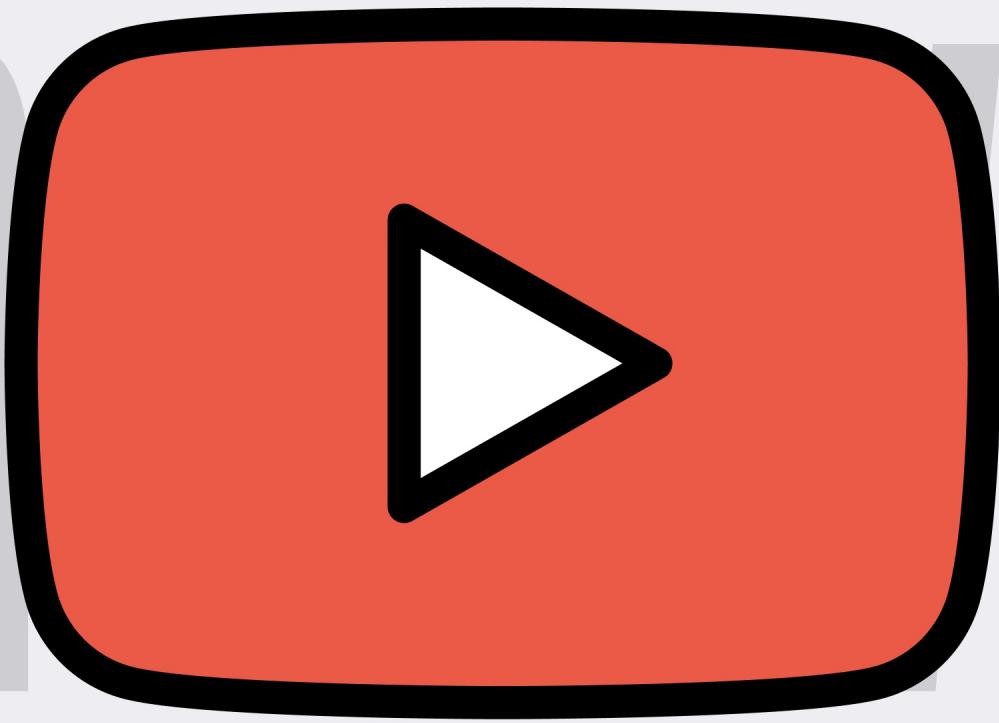

That's it. These application covers most of the features and implementation's, and don't hesitate to challenge yourself by implementing new features and technologies along the way.

Happy coding!
